

## **Preface**

The papers in this Special Issue were invited from papers presented at the 1990 IEEE Symposium on Logic in Computer Science. All of the invited papers have been refereed in the usual manner; in most cases, they are substantially revised and expanded. Ten papers were invited, resulting in five papers that appeared in Volume 98, Number 2 (June 1992), and the three papers that appear here. I thank the authors and the referees for their effort.
